## **F. Javier DeRossette**

Javier serves as technology operations manager at HORNE where his primary responsibilities include managing the enterprise network, data center and telecommunications throughout all of the HORNE office locations. Additionally, he manages the licensing, maintenance, usage and deployment of all software applications throughout the firm. He works closely with all of our licensed software vendors and IT developers to ensure that all application systems stay up to date and in compliance.

Javier joined HORNE in 2002. He has more than 10 years of technology experience and obtained his Citrix Certified Administrator vendor certification in 2003.

Javier graduated from the University of Mississippi with a Bachelor of Business Administration with an emphasis in management information systems.
