## Thomas Agostinelli

Thomas is a manager at HORNE LLP where he is responsible for conducting detailed management analytical studies to identify deficiencies and provide solutions. Thomas works closely with program directors to provide business process management services to each program.

Thomas joined HORNE in 2009. Prior to joining HORNE, Thomas spent more than 10 years working for an embedded computer hardware company serving in multiple capacities. Thomas worked directly with Fortune 500 companies in the industries of communication, military, aerospace, and networking providing rapid custom design and delivery of advanced computer platforms.

Thomas earned a Bachelor of Science in industrial engineering and a Masters of Business Administration from Mississippi State University.
